

Premium Add-on device for your home

This is smart door/window sensor, adopts super low power consumption ZigBee wireless networking technology, makes a longer battery life-span, can feel open or close state of the door or window through closing and separating between sensor and magnetic, dual sensor design, flexible and adaptable, products are suitable for home, villa, factories, shops, banks, office building and other place of safety prevention.

Features

- Standard ZigBee protocol, good compatibility;
- Super low power consumption design, battery lifespan up to 24 months;
- Real time monitoring closed/open start of door or window;
- Double reed switch design, suitable for door or window with different direction;
- Support anti-dismantle alarm;
- Easy replacement of the battery;
- Low power alert and report function;
- Free tool installation, stick and play;
- Smart and fasion design, with appearance design patent;
- CE, ROHS, FCC approval

Specification

- Working Voltage: DC3V
- Battery Type: 2xAAA battery
- Battery Life: 2 years
- Standby Current: <10 uA
- Alarm Current: $\leq 36\text{mA}$
- Install Height: surface mounted
- Networking Way: ZigBee 2.4GHz
- Sensitivity: 15m
- Anti-RF Interference: 80MHz — 1GHz 10V/m
- Operating Environment: $-10^{\circ}\text{C} \sim +50^{\circ}\text{C}$
- Working Humidity: $\leq 95\%RH$
- Transmitter Dimensions: 76x36.6x16.5 mm
- Magnet Dimensions: 76x13.9x16.5mm
- Gross Weight: 67g
